

FACTS ABOUT THE BUILDING

The groundbreaking ceremony for this building, which was designed by architect Alv G. Youngberg, Bountiful, Utah, was held Tuesday, March 15, 1966 at twelve o'clock noon under the direction of President J Harold Call. The same day the Turner Construction Company, building contractors, began the construction. Two weeks before this ceremony three feet of snow had fallen in the valley.

The cost of the contract was \$339,886.00; the cost of the building and furnishings was \$383,700.00.

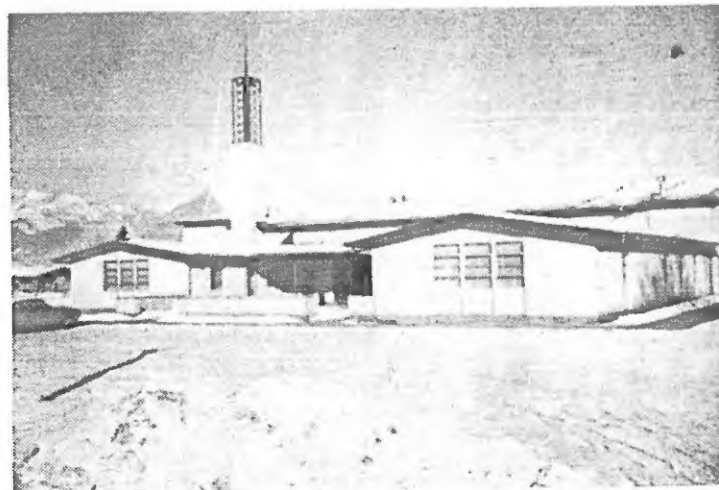

The building was completed in ten months and one week. The supervisors of the building were Alfred Chapman and Aubra Hotchkinson.

Construction moved rapidly. Weather conditions were so favorable that work was halted only a half-day because of storms.

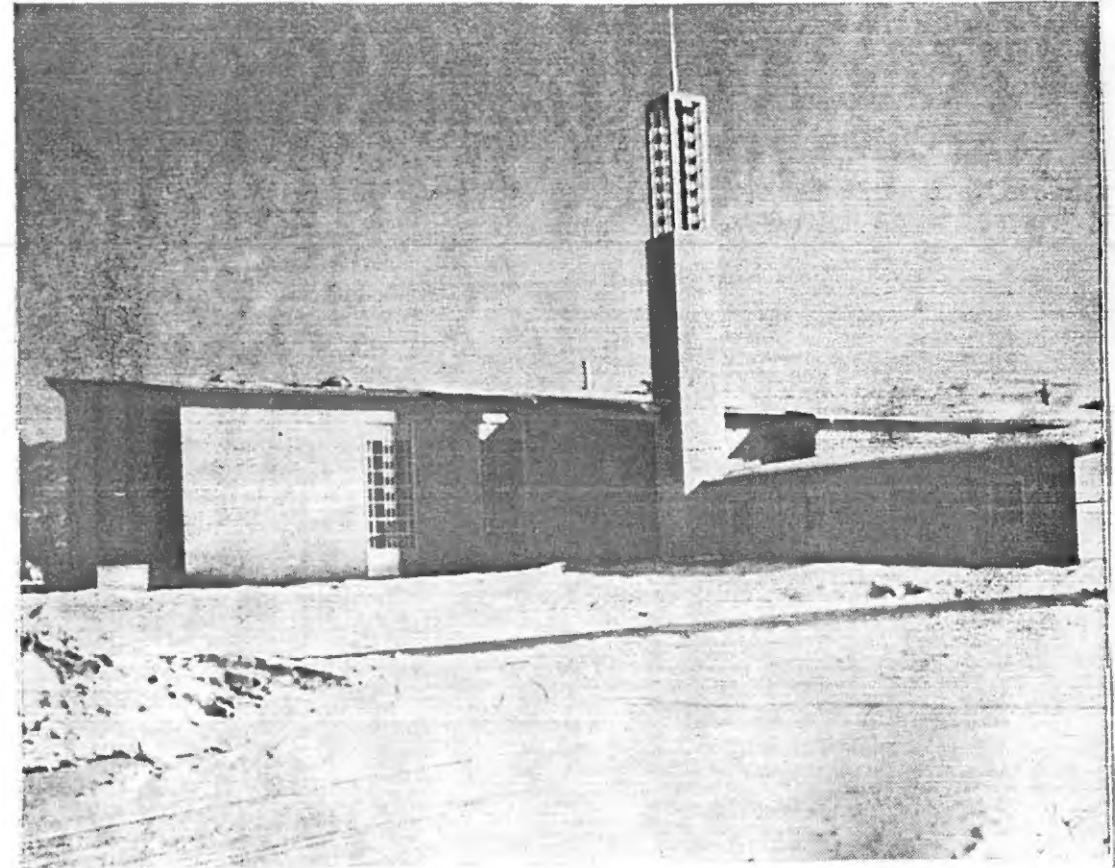

Since our building was contracted, only a limited amount of donated labor could be furnished; but the two wards donated \$6,127.00 in labor.

The entire stake and ward obligation was \$151,390.40. Of this amount the Heber Second and Fifth Wards jointly contributed \$100,874.24.

Facilities include 367 capacity chapel, 140 capacity overflow lounge. With the 60 x 93 Cultural Hall, the seating capacity is 1,800. Overflow crowds can also hear in the Relief Society Room, the multipurpose room, the Aaronic Priesthood room and the Junior Sunday School room. We also have 24 x 40 Junior Chapel, 25 x 42 multipurpose room, 26 classrooms, kitchen, library, baptismal font, offices for stake president, two bishops and clerks, high council room and scenery storage room space above the stage. The building covers 24,587 square feet; there will be 20,000 square feet of shrubbery and lawns; and the parking lot accommodates 176 cars.
